CONVENIENCE.

Mobile Chemotherapy Company

OUR MISSION

To revolutionize cancer care by bringing hope, comfort, and convenience to our patients' lives. We are dedicated to providing high-quality chemotherapy treatments in the comfort of patients' homes, ensuring they receive personalized care and support throughout their journey. Together, we ride the Wave of Hope towards a healthier future for all.

Wave of Hope aims to portray an image of compassion, innovation, and empowerment. They aim to be viewed as a beacon of hope and support for individuals and families affected by cancer, symbolizing resilience, courage, and optimism in the face of adversity

Riding the wave to a hopeful chemo recovery

ABOUT US

Wave of Hope is a mobile chemotherapy company where cancer patients can receive their treatments from the comfort of their own homes. A nurse visits patient's homes, helps set up their treatment, and stays until it is complete. This company is the bridge between our partner center, UCLA Health. Wave of Hope is based out of Los Angeles, California, but is available to patients along the southern and central coasts of California.
